

ALL OF THE ABOVE: GEOENGINEERING & HOW TO STOP IT

CLAYTON J. BAKER, MD

GLOBAL CONTROL & DESPAIR

“I get the impression that many of the old men who now run the world are experiencing a desperate struggle to come to terms with their mortality. The diabolical pseudo-religions they have erected are an expression of this. Instead of retiring from public affairs, many of these men are apparently determined to hold onto their power for as long as possible. It seems they want to remake the world in the image of their despair.”

WHAT IS GEOENGINEERING? ~~“ALL OF THE ABOVE”~~

Geoengineering may be defined as the sum total of all the weather and climate manipulation methods that humans employ to deliberately and unnaturally change, control, and weaponize weather and climate.

ALL OF THE ABOVE: TYPES OF GEOENGINEERING

- First Generation: Old fashioned cloud seeding (Silver Iodide, others)
- Second Generation
 - Stratospheric Aerosol Injection (Welsbach Particles, Aluminum/Barium/Strontium, etc.)
 - Solar Radiation Management (Sulfur Dioxide/Sulfuric Acid)
- Ground-Based
- Sea-Based
- Electromagnetic Radiation_Based
 - HAARP (Ionospheric Heaters)
 - NEXRAD
- Other

GAIN-OF-FUNCTION/BIOWEAPONS & GEOENGINEERING: SAME PLAYBOOK, DIFFERENT DECEPTION

CHARACTERISTIC	GOF/BIOWEAPONS	GEOENGINEERING
Manipulation of Nature	Infectious Agents	Weather/Climate
Examples of Weaponization	Lyme, COVID-19	Project Popeye, Helene
Globalist Organization	WHO	WMO
Top Secret Government Funding	DARPA, DoD, HHS, etc.	DARPA, DoD, NOAA, NSF, etc.
Disinformation Campaigns	“Anti-vaxxer”	“Chemtrail v. Contrail”
Corporate Involvement	Pfizer, Moderna, etc.	Lockheed Martin, Raytheon, etc.
University Payouts	Gain-of-Function Laboratories	Geoengineering Departments
Bill Gates	GAVI	FICER

UNTIL RECENTLY, GEOENGINEERING WAS “JUST ANOTHER CONSPIRACY THEORY”

- Intense social media battle on multiple platforms X, Tik Tok, Instragram, YouTube, etc.
- Individual citizens posting photo, video, and documentary evidence of:
 - Massive increase in visible stratospheric aerosol injection (“chemtrails”) worldwide
 - Intensive use of Ionospheric Heating & NEXRAD to direct weather patterns
 - Tracking of flight patterns of offending aircraft
 - Growing evidence of geoengineering causing extreme storms
 - Dubai, Valencia, Wales
 - Hurricane Helene & Milton
 - Camp Mystic Disaster
 - “FOGVID-24”

NO LONGER JUST ANOTHER CONSPIRACY THEORY

Social media attempts to post about geoengineering have met with repression of the types seen by truth tellers during COVID

Shadow banning

PUBLIC AWARENESS: THE TIDE IS TURNING

Numerous large platform influencers now addressing geoengineering

Tucker Carlson, Glenn Beck, Benny Johnson, Jimmy Dore, Rob Schneider, Carol M Swain, General Flynn, Simon Goddek, Naomi Wolff, Illuminatibot, Camus, Vigilant Fox, etc.

Numerous prominent politicians openly addressing geoengineering at both federal and state level:

HHS Secretary Robert F. Kennedy Jr., Director Lee Zeldin (EPA), Former Rep. Marjorie Taylor Greene (GA), Rep. Greg Steube (FL), Rep. Tim Burchett (TN), Rep. Thomas Massie (KY), Governor Ron DeSantis, Florida AG Uthmeier, State Representative Monty Fritz (TN), State Senator Doug Mastriano (PA), State Rep. Clint Hostetler (ID), State Rep. Lee Gilreath (SC), Andrew Bridgen (UK) and others

@robertfkennedyjr: “We are going to stop this crime”

US STATE LEGISLATION AGAINST GEOENGINEERING

- States with laws passed: Tennessee, Florida, Louisiana
- Last year, 32 states pushed for anti-geoengineering legislation, this year 26 states proposed bills (including Blue states such as New York and Rhode Island)
- Existing state laws have limited effectiveness given restrictions with enforcement, but brought credibility to an issue that just a few years ago was viewed as “conspiracy theory”. State legislation creates a path for legal challenges, accountability and transparency, but will not solve for the entirety or complexity of this issue.
 - States do not control airspace (above 400’)
 - Federal regulations need modernization (The Clean Air Act)
 - Federal Government is doing much of the spraying/dispersement

NUMEROUS ADVOCACY GROUPS ADDRESSING GEOENGINEERING

- Global Wellness Forum
- Stand for Health Freedom
- Children's Health Defense
- The GeoFight (new litigation group)
- Multiple members of the "Disinformation Dozen" (Sayer Ji, Sherri Tenpenny)
- COVID dissident physicians (Meryl Nass, Yours Truly)

THE CLEAR SKIES DECLARATION

A Call by Physicians, Health Professionals, and Citizens to End Atmospheric Pollution and Contamination Through Aerosolized Dispersions, Geoengineering, and Climate Interventions

[Sign the Declaration](#)

ABOUT THE DECLARATION

The Clear Skies Declaration unites physicians, health professionals, and citizens in calling on our government to protect human health, ecosystems, and fundamental rights by halting geoengineering practices and climate intervention experiments. Our skies, air, and environment are shared natural resources that must be protected for present and future generations.

We call for these programs to be banned:

GEOENGINEERING

Large-scale technologies employed to alter Earth's climate, such as blocking sunlight, manipulating temperatures, or reflecting solar radiation.

WEATHER MODIFICATION

The intentional manipulation of weather, including precipitation, fog, and storms, by altering or influencing atmospheric processes.

STRATOSPHERIC AEROSOL INJECTION (SAI)

The spraying of nanoparticles of heavy metals, chemical aerosols, and other materials into the upper atmosphere to block sunlight and manipulate temperatures.

SOLAR RADIATION MODIFICATION (SRM)

Approaches designed to lower Earth's global temperature by deploying reflective aerosols within the upper atmosphere to deflect solar radiation.

PROTECTING EARTH'S ATMOSPHERE

We must protect our atmosphere (and our air, water, and soil) from the following:

HEAVY METALS

Particulates and compounds of metals (aluminum, barium, strontium, & more)

AEROSOLS

Chemical aerosols such as sulfur dioxide, and alumina compounds, among others

NANO MATERIALS

Nanomaterials such as graphene oxide, polymers, silver, silica, TiO₂, and ZnO, and more

TOXIC POLLUTANTS

All toxic and pollutive additives to jet fuels, such as Polycyclic aromatic hydrocarbons (PAHs)

OTHER AGENTS

Hazardous agents, such as Biological (bacterium or virus), electromagnetic, biocides, and more

THE DECLARATION

As physicians, health professionals, and citizens committed to the health of our patients and the human population as a whole, we call for an immediate ban on geoengineering, weather manipulation, climate intervention programs, or deployment of any toxic or hazardous substances across the globe. These programs are highly toxic to human health. They are extremely destructive to our planet's ecosystems. They represent a gross violation of basic human rights. They must be brought to an end.

The programs we call to be banned include all activities that involve the release into the Earth's atmosphere of:

- Particulates and compounds of metals such as aluminum, barium, strontium, and others
- Chemical aerosols such as sulfur compounds and others
- Nanomaterials such as graphene oxide, polymers, and others
- Toxic and pollutive additives to jet fuels
- Biological, electromagnetic, and other hazardous agents

The programs we call to be banned include, but are not limited to, those identified and funded under names such as:

- Geoengineering, Climate Engineering, and Weather Modification
- Stratospheric Aerosol Injection (SAI) or similar
- Solar Radiation Management (SRM) or similar

Health Hazards

Regardless of the stated intent of these programs, they constitute deliberate pollution and degradation of the Earth's atmosphere. They contaminate our air, water, and soil. They pose a serious threat to all forms of life.

These activities are toxic to humans by multiple mechanisms. These include heavy metal toxicities, neurodegenerative diseases, lung disease, sunlight deprivation, increased mental illness, and others.

Beyond harming humans, they are also toxic to animals and plants. They pose long-term threats to biodiversity, agriculture, pollinators, and the environment as a whole. They threaten our future and that of our children and grandchildren.

Human Rights Violations

These programs are an extreme violation of fundamental human rights. They are conducted entirely without informed consent.

Numerous government documents, budget appropriations, and patents confirm these activities, but there has been limited public transparency. These programs are shrouded in secrecy, obfuscation, and falsehoods by those perpetrating them, in a complex web of private and public partnership.

In the name of human health, the viability of our natural world, and fundamental human rights, we call for an immediate and enforceable ban on all forms of atmospheric geoengineering and weather modification described above.

We call for an end to the concealment of such activities. We call for the establishment of strict governmental enforcement against such activities and the establishment of accountability measures to protect future generations from irreversible harm.

FOR THE DISTRICT OF COLORADO
EASTERN DIVISION

Civil Action No. 1:26-cv-00274-SB

JUSTIN MABIE

Plaintiff,

v.

UNIVERSITY OF COLORADO,

Defendant.

First Amended Complaint

NOW COMES the Plaintiff, JUSTIN MABIE ("Plaintiff"), by and through his attorneys, Blake Horwitz, Esq. of BLAKE HORWITZ LAW FIRM, and Nicole Pearson, Esq. of FACTS LAW TRUTH JUSTICE, A.P.C., and hereby alleges as follows in his First Amended Complaint:

Introduction

1. The proper retention of historical weather data is essential for the United States, foreign governments, the United Nations and private enterprise. It is from this information that long and short-term decisions can be made with regard to weather and climate change.
2. The greatest collection of historical weather data is managed and retained by NOAA ("National Oceanic and Atmospheric Administration").
3. Unfortunately, said management has been taken over by individuals who seek to alter and/or destroy historical and contemporary weather records so as to allow the United States

FEDERAL GOVERNMENT LEGISLATION

- Former Rep. Dennis Kucinich (OH) attempted legislation against geoengineering in the early 2000s
- Latest bill sponsored by Rep. Greg Steube (FL), HR 7452 The Air Quality Act, co-authored by GWF
- Co-sponsors: Rep. Jefferson Van Drew (NJ), Rep. John Rutherford (FL) and Rep. Lauren Boebert (CO)
 - This improves upon the last federal legislation (formerly by Rep. MTG) with broader jurisdiction, stronger enforcement and explicit ban on federal research and funding by federal agencies.
 - Prohibits anyone who authorizes or performs weather modification (including geoengineering, cloud seeding, solar radiation management, etc.) within U.S. jurisdiction, with penalties of up to \$100,000 and five years in prison per violation, plus civil fines of up to \$10,000.
 - Mandates the FAA to set up a system for airlines to report aircraft equipped with weather-modification devices, and the EPA to create a public reporting system for suspected violations; both agencies must publish the reports online.
 - Repeals any federal statutes, regulations, or executive orders that currently allow licensing, permitting, or otherwise authorizing weather-modification activities.
 - Bars all federal departments, agencies, and any recipients of federal funds from conducting or funding research, testing, or experimentation that constitutes weather modification in the United States.

Call your House Rep. and ask them to co-sponsor this bill!

FEDERAL ACTION BY THE TRUMP ADMINISTRATION

- Dismantling of the National Center for Atmospheric Research
- US Leaving 66 Global Organizations, many of which are highly active in geoengineering activities and funding
- Partial De-funding of the World Meteorologic Organization (WMO), the geoengineering equivalent of the World Health Organization (WHO)
- NOAA workforce cuts and proposed federal reductions to weather and climate research

The image block contains three visual elements. On the left is a map of the United Kingdom and Ireland with numerous numbered blue dots indicating the locations of geoengineering experiments. On the right are two photographs: the top one shows three large, silver, spherical storage tanks at an industrial site, and the bottom one is an aerial view of a large industrial complex with several similar tanks and buildings.

Q: WHAT IS GEOENGINEERING, REALLY?

A: MULTI-MODAL WEATHER MODIFICATION!

UK Guardian, December 9, 2024

“Europe should ban space mirrors, cloud whitening and other untested tools being touted to reflect the sun’s rays, the European Commission’s scientific advisers have said, but said the door should be left open for research into their development.

The scientists said the risks and benefits of solar radiation modification (SRM) – also known as solar geoengineering – were “highly uncertain”. They called for an EU-wide moratorium on using it as a way to offset global heating.”

SUMMARY

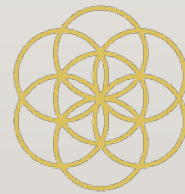

- A Geoengineering-based “Climate Crisis” is very likely the next “COVID”
- The ongoing human and environmental harm is catastrophic
 - Human toxicities – My efforts at a medical level
 - Environmental destruction (fauna & flora)
- We are at a tipping point
 - Awareness - Exploding
 - Opportunity – The Current Administration
 - Permanent damage to the atmosphere, air, water, & soil may be irreversible soon
